

Astronaut Scholarship Foundation 2023
Deadline: March 6, 2023 (11:59PM CT)

The Astronaut Scholarship Foundation (ASF) award is for outstanding students in the fields of engineering, mathematics and natural or applied sciences who have shown initiative, creativity and excellence. Scholarships are awarded to students who have the intention of pursuing research or advance their field upon completion of their final degree. The Astronaut Scholarship is worth up to \$15,000.

Eligibility

Students must meet the following criteria to be eligible for nomination for an Astronaut Scholarship:

1. Must be nominated for consideration by a professor at UT Austin who knows the student well enough to identify a special drive or talent that foreshadows a creative career leading to the advancement of scientific knowledge and technology.
2. Must be a STEM major going into junior or senior year. You can find a complete list of qualifying STEM majors at <https://astronautscholarship.org>.
3. Must be a U.S. Citizen
4. Must have completed two years of full-time study at UT Austin and have demonstrated exemplary academic performance, as noted in transcripts.
5. Should be a full-time student during both semesters of the ASF supported academic year.
6. Must have conducted considerable amount of work outside the classroom in their chosen field of study. This may include laboratory research, cooperative education, internships, relevant military experience, entrepreneurial endeavors, and/or documented independent work resulting in technical papers, patents, or similar work product.

Those intending to pursue a practice in professional medicine are not eligible for the Astronaut Scholarship. However, students intending to perform biomedical research are eligible to apply. Special consideration is not given to students majoring in aeronautical/astronautical engineering or those intending to pursue careers as astronauts.

Nomination Process

The College of Natural Sciences along with the College of Engineering will identify and nominate up to two students to represent The University of Texas at Austin for the Astronaut Scholarship. CNS students interested in being considered for nomination must complete the CNS preliminary application process. If your application is selected for formal nomination, you will be required to complete the official ASF 2023 nomination forms.

Preliminary Application

A complete CNS preliminary application includes the following:

1. **Preliminary Nomination Form:**
https://utexas.qualtrics.com/jfe/form/SV_8pOV0Dc4HE474kB
2. **Two (2) Letters of Nomination** from faculty members or research professors. One letter of nomination must be from a professor at UT Austin. Letters should include details on the student's research achievements and endeavors.
3. **Personal Statement** – students should submit a short statement of personal interests, hobbies, activities and goals. The personal statement should give examples of the involvement and commitment of the student to their studies beyond the formal classroom setting. Creativity is an important attribute and should be documented. Personal statements should not exceed one page typed using 12-point font.
4. **Personal Resume**

Students will upload both the personal statement and the personal resume directly to the preliminary nomination form. Instructions on how to submit the faculty letters of nomination can be found on the preliminary nomination form.

Deadline

The deadline to submit preliminary nominations forms and letters of nominations is Monday, March 6, 2023 (11:59PM CT). Late and/or incomplete applications will not be considered.
